---

We're in the Island of Fuerteventura, famous for its beach and its encounter with a quiet nature, and magical sensations. The Villas are perfect for rural tourism, and because of its location and context also for beach tourism, and in both cases provided with peace, relaxation, independence and contact with nature. With a large number of paths for hiking, mountain biking, etc. Its location on the island allows expeditions to the beautiful and countless lonely valleys of the coast of Barlovento.

Easy access to beaches, less than 2 km. You can enjoy the beach "Great Tarajal", with calm waters and more than 1 kilometer in length. Less than 6 km, is its beautiful and comfortable Avenue premises stocked with all kinds of services. Opened the immense beaches of South jable, where among other world championships are held at the Grand Prix of water sports (Windsurfing, Sky Surfing, etc, etc.).
